

# FMI ALUMNI SCIENTIFIC SYMPOSIUM

FMI alumni who have become group leaders present their research

Monday, November 28, 2022 | 13:00-18:30

FMI room 5.30 and on Zoom

## Speakers:

**Sabine Krabbe** | Center for Neurodegenerative Diseases, Bonn, Germany

*Functional diversity of inhibitory amygdala circuits*

**Benjamin Towbin** | University of Bern, Switzerland

*Growth Control from Cells to Organisms*

**Daphne Cebianca** | Helmholtz Center, München, Germany

*RNA pol I shapes the large-scale chromatin architecture of intestinal cells in response to nutrients in *C. elegans**

**Arnaud Krebs** | EMBL Heidelberg, Germany

Understanding gene regulation using single molecule genomics

The symposium will be followed by a **light apero** (17:00-18:30).

On November 29 the speakers will meet with FMI postdocs for career talks.
